AIRPORT MECHANICAL SERVICES, INC.

A Full Service Maintenance Company - Dedicated to Safety

#1 in the Hangar Door Maintenance & Repair Industry

Welcome to Airport Mechanical Services, Inc. -

We provide full service maintenance and repair specializing in Aircraft Hangar Doors (Military & Civilian). Based out of Seattle, Washington, we have over 37 years experience in maintenance and repair of Aircraft Hangar Doors throughout the country. We have a great liaison with manufacturers thus enabling us to quickly locate and obtain spare parts and replacement units.

Contractual services are available to all major & provincial airlines, as well as military installations, port authorities and other companies seeking round-the-clock, first-class maintenance services to facilitate the safety and trouble-free operation of their equipment.

We specialize in all types of Aircraft Hangar Doors.

We are #1 in Hangar Door Repair, Maintenance and Customer Service. We are dedicated to give you 100% satisfaction in our services.

Aircraft Hangar Doors -

Our firm has over 37 years experience in all types of hangar door maintenance and repair. We are excellent at problem solving in unique situations and make alterations to the door to fit the needs of the user.

We provide inspections with an inspection report and repair cost estimates. We can build a maintenance program to fit the users needs.

We believe that existing aircraft hangar door systems do not have to be replaced with brand new systems. Our experience in the hangar door industry has proven to our clients that repairs, modifications, and upgrades are as valuable as brand new hangar doors. The costs for repairs, modifications, and upgrading to existing doors are less than 30% of the cost of a brand new hangar door.

We are #1 in Hangar Door Repair, Maintenance and Customer Service. We are dedicated to give you 100% satisfaction in our services.
